About me

As a teenager at school I was very curious to know about how different technologies work. I am very new to the subject but I aspire to learn. I took admission in Delhi Univerity so as to explore my field of interests. Currently I am working on HTML,CSS and Bootstrap. I aim to strengthen my critical thinking, management and development skills.And I am eager to learn and improve further in my field.

Some of my other interests include writing and painting.
